

CoverageFirst[®]

How it works

What is CoverageFirst?

With CoverageFirst, you can see any provider without a referral – but your costs are usually lower when you use in-network providers. What makes CoverageFirst unique is the **\$500-per-covered member** “benefit allowance” that covers many services from in-network providers before you start paying toward your deductible.

Here's how it works:

1. The plan pays the first \$500 of eligible expenses from in-network providers. You just pay a copayment.
2. If you use the entire \$500, you pay most additional expenses until you meet the annual deductible. The plan has a separate \$500 allowance and a separate deductible for each family member; each person's costs also apply to a deductible for the entire family.

Why you might want CoverageFirst

CoverageFirst offers lower premiums and a “safety net” in case of a major illness or injury.

- **Your up-front costs are lower.** CoverageFirst premiums are generally lower than with other plan types.
- **You could have very low out-of-pocket costs.** Many health plan members spend less than \$500 a year on medical care.* If you're in that group, the CoverageFirst allowance might cover all of your costs except your copayments.
- **Preventive care coverage.** Even if your \$500 is gone, CoverageFirst covers your preventive care office visits. However, you would be responsible for special procedures billed separately, such as lab work.
- **The out-of-pocket maximum provides peace of mind.** If you have a serious illness or injury, your costs for covered services at in-network providers are capped.

Using your allowance

The entire \$500 is available on the first day of the plan year. You can use the allowance for:

- Doctor's office visits
- Routine outpatient laboratory tests and X-rays
- Hospital services, including semiprivate room and board, emergency room services, and outpatient surgery
- Other services such as home healthcare, physical therapy, and hospice care

Your allowance isn't depleted when you fill a prescription or receive mental health services. Also, the allowance doesn't cover copayments or any services from out-of-network providers. Check the summary plan description for details about plan benefits, limitations, and exclusions.

Humana[®]

[Humana.com](https://www.humana.com)

Example one — Lynn (single coverage)

Lynn chooses a CoverageFirst plan with:

- **\$500 allowance**
- **\$3,000 deductible**
- **100 percent coinsurance** (in-network)

Lynn goes to her primary care physician and finds out she needs some blood work.

• Doctor's office visit (Lynn pays a \$25 copayment)	\$50
• Outpatient lab (no copayment)	\$400

How Lynn uses CoverageFirst

Total cost of medical services	\$450
Lynn's copayments	\$25
CoverageFirst pays the remaining costs	\$425

Summary

Lynn's medical expenses for the calendar year didn't exceed her \$500 CoverageFirst allowance. The only medical expenses she paid were copayments totaling \$25.

Example two — Greg (family coverage)

Greg chooses a CoverageFirst plan.
Each covered member has:

- **\$500 allowance**
- **\$2,500 deductible**
- **80 percent coinsurance** (in-network)
- **\$3,000 out-of-pocket maximum**
(does NOT include the deductible)

Greg is injured in a fall. He goes to the emergency room and spends two days in the hospital. Later, he has a follow-up visit with a specialist.

• Hospital care (Greg pays \$500 in copayments)	\$10,000
• One specialist visit (Greg pays \$50 copayment)	\$150

How Greg uses CoverageFirst

Total cost of medical services	\$10,150
Deduct Greg's total copayments	(-\$550)
Remaining cost of medical services	\$9,650
CoverageFirst pays \$500 of remaining cost.	\$9,150
Greg is now responsible for his deductible	(-\$2,500)
Remaining cost of medical services	\$6,650
Greg's plan pays 80 percent of remaining cost, leaving Greg to pay 20 percent— \$6,650 x 20% = \$1,330	

Summary

Greg's out-of-pocket maximum is \$3,000. He has met \$1,330 (his deductible did not apply to the out-of-pocket maximum). Greg must pay \$1,670 more in medical costs until he reaches his out-of-pocket maximum. Then his plan will start paying 100 percent of the remaining medical costs for the rest of his plan year.

* These examples may not apply to all lines of business (PPO, POS, HMO)
