

Preventive Services Guide

Humana makes it easier than ever to get the preventive services you need to maintain your overall health. As part of healthcare reform, and depending on your Humana health plan, a range of preventive services will be available to you at no cost! The services listed here will be covered **100 percent** as part of preventive care. That means no copayments, coinsurance or deductibles when services are performed by providers in the Humana network. Also, it's important to note that you won't have to pay out-of-pocket for these services unless you get them as part of a visit to diagnose, monitor or treat an illness or injury.

Remember, preventive care keeps you healthy, prevents illness, and detects diseases in the early stages - when easier to treat.

Adult Preventive Services

Preventive office visits are covered, as well as the screenings, immunizations, and counseling listed.

Screenings

Abdominal Aortic Aneurysm - one-time screening for men of specified ages who have ever smoked
