

HOME FIRES: America's Most Common Disaster

Did you know that if a fire starts in your home, you may only have two minutes to escape?

Our partners and volunteers want to help you, your family, and our communities to stay safe by offering to install **free** smoke alarms to families who need them on October 19th 2019 in Clark and Floyd counties. In addition to alarm installations, a volunteer will work directly with you and your family to share tips on how to prevent a fire, complete a home safety checklist, and help develop a fire escape plan.

On average, **7** people die and **36** are injured every day in a home fire - working smoke alarms cut that risk in half.

This service is free of charge. If you would benefit from receiving a smoke alarm, please fill out a copy of the request form below.

As well as providing and installing smoke detectors **free-of-charge**, we will provide vital information about home fire preparedness and help the family develop an escape- plan.

If you have any questions, please feel free to contact us at 502-648-9363.
